

School District of Collier County

Where We Are Going: All students will complete school prepared for ongoing learning as well as community and global responsibilities.

How We Get There: By providing exceptional educational opportunities that motivate and engage each student.

Essential Strategies: In order to accomplish our goals, we must:

- Provide every school with a visionary, inclusive principal who builds a learning community that produces results for all students.
- Ensure that each child has skilled and committed educators who provide a safe, caring and rigorous learning environment with multiple opportunities for development and student success.
- Develop a diverse student body that is engaged, intellectually curious and motivated to learn and achieve.
- Collaborate with families as partners in the learning and development of their children.

Supporting Strategies: Other important steps will include:

- Developing a relationship between the school board and superintendent that is collaborative and trusting, in which all parties have a clear understanding of roles and are working toward shared goals.
- Dedicating resources to strategies that support student learning.
- Nurturing an active community of parents, organizations and volunteers who recognize the district's strengths and challenges, support our efforts to help all students succeed and have the tools to be full partners.

Values:

- All students can meet and exceed high performance standards.
- The district and the community, together, are responsible for giving students academic and other support so they can focus on learning.
- If we empower and engage families, they can help their children achieve success.
- We will base all of our decisions on evidence and the best interest of students.
- We value, understand and embrace diverse cultures and learning styles.
- We have the ability to successfully meet all state and federal government requirements.
